Fueled by a passion for self-education and a thirst for knowledge, Justin continues his student journey as a Phoenix. After earning a Master of Science in Psychology at UOPX, he decided to further pursue a Doctor of Education.

Justin's victory is sweeter knowing the obstacles he's overcome, including medical challenges. Through it all, he remains resilient, always ready to help others and educate those who follow. His advice? "Close your eyes, take a deep breath, you can get through anything. Rise higher!"

Are you a proud holder of multiple degrees or considering furthering your education? Shout yourself out!

Justin G. (MSP, '23 + EdD, current student)
